

Russell Complete Brake System Kit #685000

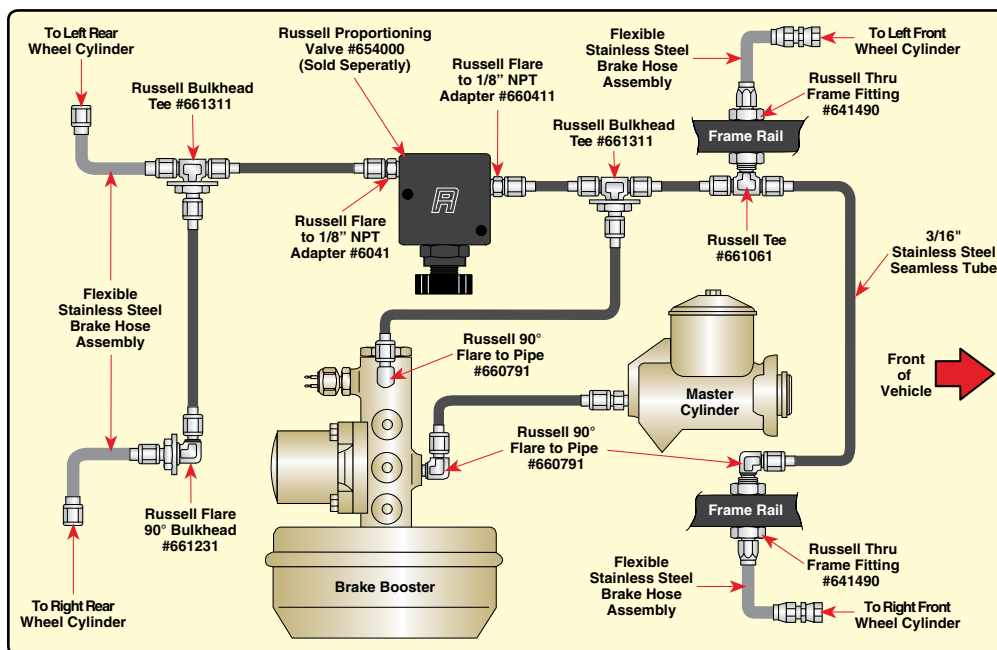

RUSSELL COMPLETE BRAKE SYSTEM KITS

Russell complete brake system kits are ideal for use on street rods, muscle cars or any project vehicle that is built from the ground up. Each kit contains all of the necessary components required to professionally plumb a complete brake system. These kits feature our unique ultra bright Endura finished components that simulate the appearance of stainless steel, but provide superior corrosion protection over standard cadmium plated fittings.

When selecting your system, three and four hose kits can be used on vehicles with a solid rear axle while four hose kits are required for use on vehicles with independent rear suspension and out board brakes. Caliper fittings must be purchased separately. A 37° flaring tool is required for correct flaring of the tubing.

DESCRIPTION	ENDURA PART #
3-Hose Complete Brake System Kit (for solid rear axle applications)	685000
4-Hose Complete Brake System Kit (for independent rear suspension applications with outboard brake installation)	685010

BRAKE SYSTEM SCHEMATIC

KIT #685000

INCLUDES:

- (4) 6' x 3/16" Seamless Stainless Steel Brake Tubing
- (4) 18" Flexible Stainless Steel Brake Hose Assemblies
- (12) 3/16" Billet Aluminum Line Clamps
- (2) 2" Thru Frame Fittings
- (14) -3 Endura Finished Flared Sleeve Adapter Fittings
- (1) Endura Finished -3 Flare to 1/8" NPT 90° Elbow Fitting
- (1) Endura Finished -3 Tee with 1/8" Thread on Side Fitting
- (1) Endura Finished -3 90° Elbow Flare with Bulkhead Fitting
- (2) Endura Finished Flare Bulkhead Tee on Run Fitting
- (3) Endura Finished -3 Jam Nut
- (4) Endura Finished 18" Straight -3 to Straight -3 Fitting
- (12) 8-32 Steel Loc Nut
- (2) Endura Finished -6 Jam Nut
- (12) Counter sunk 8 x 32 x 7/8" Stainless Steel Screws
